**About**

Philips is Healthcare Tech company, world leader in healthcare.

**Strategic question**

What role can technology play to improve the life of (vulnerable) elderly (including those who decide to live at home) significantly (cognitive, social, health, etc.)?

**Expected outcome**

New insights, ideas about possible cooperation or pilot.

**Looking for**

- Elderly care / home care
- Health care
- Community (especially since municipalities are now responsible for the elderly)
- Insurance
